

Dear All,

Below you can find the grading from the written test (Marketing Pre-Exam, 21 May 2018). Students can pass the exam only if they achieve a minimum of 18.

The upcoming week I will not be at the university or available by mail, because I will be at the ICIG Symposium 2018. Therefore, I am adding some additional information:

- Students that have done 2/3 (or 3/3) questions and did not achieve the 18/30 must re-do the 3 questions at the second summer call, thus the 6th of July 2018. This is true also for the students that achieved 17/30. Please don't write me asking for exceptions.
- Students that should graduate in July and did not pass the exam can re-do the first call of the marketing exam.
- Students that have done 2/3 questions can decide to take the third question either the 14th of June or the 6th of July, not in September 2018 (of course not even in the winter session 2019!)
- Students that have done 3/3 questions (achieving a minimum of 18/30) and accept the grading must come the 21st of June to register the final grade or the 13rd of July. Please remember that the written test can be registered only the days dedicated to the verbalization (not the days of the written test!)
- Students that have done either the 2/3 or the 3/3 questions (achieving a minimum of 18/30), but don't accept the grading can re-do the written test in June or July, but not both of them. Of course, they have to take 3/3 questions. Most importantly, in case the second chance would be worse than the pre-exam, students cannot chose to accept the previous grading.
- The grading from the class exercitation (0,5) and the grading from the marketing plan (from 0 to a maximum of 3 points) will be added the day of the registration
- Students who would like to check their written test can have a look at it the 21st of June, thus the day of the verbalization. I know that some of you could complain because they would like to have a check before the 14th, but this is not possible. Thus, please do not send any email asking for an exception.

All the best,

MMingione
