Abstract

350 - 500 words.

Abstract provides readers an idea whether the work will be worthwhile without having to read the whole work.

What to include in your abstract?

What are the aim and objective of the thesis?

What are the main theory or framework?

What was the employed research method?

What were the main findings?

What are the main conclusions?

Any recommendation?

Keywords: A

Chapter I: Introduction

1.1 Research background

1.2 Study objectives and methodology

1.3 Innovation points of research

What to include in your introduction?

Why the subject is important to study?

Why is the study carried out? to test a model, to understand a trend or phenomenon, to explore a business practice,...?

The structure of the thesis

Chapter 2: Literature Review

What to include in your Literature Review?

Presenting relevant literature as basic for backbone of your research

Reporting what have done by other scholars in the field

Presenting understanding and knowledge about the research

Highlighting the relevant variables and issues

Chapter 3: Research Methods

3.1 -----

3.2 -----

3.3-----

What to include in your Research Methods?

The reason of choosing quantitative or/and qualitative research methods

What this method is appropriate?

How did your plan to collect data

How did your plan to analyze data.

Chapter 4: Findings / Results

4.1 -----

4.2 -----

4.3 -----

What to include in your Finding / Results?

Presenting results have undertaken

Chapter 5: Discussion

5.1 -----

5.2 -----

5.3 -----

What to include in your Discussion?

Describing how you meet the research aims and objectives

Answering your research question(s)

Explaining similarities / differences between your findings and

what is suggested by literature

Explaining the main relationships among variables/indicators/
issues

Chapter 6: Conclusions and Prospects

What to include in your Conclusions and Prospects?

Concluding key learning points by conducting the research

Highlighting how aims and objectives of the research have been
met

Any suggestions for further research
