Vigeo

Roberto Savia- SRI Senior Analyst

March 31, 4.00pm
classroom S11 (2° floor, Building Didattica)

Roberto SAVIA is senior analyst of the finance pole, mainly working on banks and insurance companies. Within Vigeo Group, he is responsible of the research in the corporate governance area. Roberto Savia has been working at Vigeo since 2007. Before joining Vigeo, he worked at Avanzi SRI research as SRI analyst (2004-2007). He is graduated in Philosophy at the University of Milan and has a master degree in Corporate Social Responsibility at the LIUC University of Castellanza.

VIGEO Group (www.vigeo.com) assesses both the performance of companies and organisations and their level of CSR management. They assess the degree to which companies and public corporations take into account environmental, social, societal and corporate governance objectives, which constitute risk factors for them in the definition and implementation of their strategy and policies. Using their analysis, it is possible to:

- *Evaluate the level of commitment shown by organisations towards all CSR or sustainable development goals;*
- *Identify any risks incurred by the company or organisation in this area;*
- *Evaluate their level of management.*

Vigeo Group provide their partners with sound mechanisms for decision-making and specific operational management tools:

- *SRI analyses for investors and asset managers on 3,000 European, Asian and American stocks in order to assist them in selecting their portfolios;*
- *social responsibility audits for companies to provide assistance with their strategic management;*
- *sustainable development audits for local authorities to provide guidance for subsequent improvement.*
