The Master in Economics is a one-year programme designed to provide the analytical and quantitative skills needed for a successful career as a professional economist in business or government. The programme is also designed to provide intensive training to students who want to pursue a PhD in Economics, Econometrics or Finance in leading research universities worldwide.

Tuition Fees
The annual tuition fee is €5,000 to be paid in two equal instalments.

Scholarships
Financial aid is available in the form of a total or partial refund of the tuition fees to the best-performing students in the programme.

Admission
Request for admission should be sent to the following email address mastermei@economia.uniroma2.it along with the documents listed below:
- Curriculum Vitae
- Official transcripts of university degree
- Statement of professional goals
- Two letters of recommendation
- GRE
- Certificate of proficiency in English.

Job Placement
The Master in Economics has an excellent track-record in placing students in both academic and non-academic institutions. In the last three years, about 60% of our students have been successfully enrolled in PhD programmes in top universities in Europe and the USA, while 40% have found prestigious jobs in non-academic institutions in Italy or abroad.

Student Services
Our students can benefit from special discounts on student accommodation, assistance during the application procedure and free Italian language and computer courses.

The programme, taught entirely in English, is structured in three terms: Fall, Spring and Summer. In the Fall Term (September-January) students take the review courses in Mathematics, Probability and Statistics, and the core courses in Econometrics, Microeconomics and Statistical Computing. In the Spring Term (February-June) students select courses from three areas of specialization:
- Finance
- Economics
- Quantitative Methods
The Summer Term (July-September) consists of an internship or a project, with a final report due by the end of September.
