

Dear All,

Below you can find the grading from the written test (Marketing Exam, 14 June 2018). Students can pass the exam only if they achieve a minimum of 18.

I am attaching diverse slots of results. Note that the verbalization (registration of your grade) will follow the sequence I am attaching (A, B, C). Moreover, tomorrow I will start registering those students that do not want to take the oral exam, and when I have finished the registration, I will do the oral exams. Of note, when you find written "absent", it means that these students did not take the written test, but some of them may want to register a previous taken grade (e.g., in the pre-exam). "Rit" means that students came to take the written test, but then made the withdrawal.

A) MARKETING EXAM OF 6 CREDITS, BOOKED ON DELPHI (from my understanding, 2 students booked the exam of 6 credits, but they should be 9 credits, in red. This related, I ask to all students who wrongly booked the exam of 6 credits instead of 9 credits, to remind me the situation during the verbalization)
