

Giulia Sofia Sarno is a researcher at the Istituto Affari Internazionali (IAI) in the Energy, Climate and Resources programme. She specialises in sustainable development, climate change and energy transition. Her current research focuses on energy transition in Africa, urban resilience to climate change and environmental crimes in Europe. Previously she worked for GIZ on climate mitigation and adaptation in urban areas, and for EUROCITIES, the Brussels-based network of the major European cities, in the environment team. She graduated from Sciences Po - Paris School of International Affairs (PSIA) in international development with specialisation in environment.
