Applied Economics 698

Faculty of Economics

Tor Vergata University of Rome

carlo.cicarelli@uniroma2.it

Dear Students,

Please read carefully the content of Assignment2.pdf

The assignment is taken from CHAPTER 10 of the textbook, as anticipated today in class.

You will work in teams, the same formed for Assignment 1. Within each group only the team leader will send me the files related to Assignment 2.

The deadline is 31 March 2018.

I expect team leaders to send me:

1) a Word file with a **careful** description of the data and a **detailed** yet **concise** answer to each question of Assignment 2. There is no page limit, but a few pages including graphics and tables should be enough.

2) a Stata “do file” that I can run easily on my computer, so to replicate the results of your empirical analysis.

Solutions to Assignment 2 received after 31 March 2018 will not be evaluated.

Team leaders can contact me by email or by appointment to get additional instructions.

Good luck !
