

## GIUSEPPE RECCHIA CV

- Graduated in Medicine and Surgery at Padua University, I carried out research at the Renal Transplantation of University Hospital of Verona and as a Research Fellow at Downstate Medical Centre in Brooklyn, NY (US).
- In 1984 I joined *Glaxo* (now *GlaxoSmithKline*) Italy, a pharma company where I held the positions of Director of Clinical Research, coordinator of New Product and Medical & Scientific Director (1993-2018).
- Since 2017 I have been Vice President of the *Smith Kline Foundation* and sponsor of “*Digital Therapeutics for Italy*”, “*Artificial Intelligence for Research and Healthcare*” projects.
- In 2019 I co-founded *daVinci Digital Therapeutics*, a startup involved in research, development and go-to-market of Digital Therapeutics.
- In 2021 I co-founded *daVi DigitalMedicine*, a startup involved in research, development and go-to-market of Digital Medicine products as Digital Supports and Digital Rehabilitation systems.
- I teach the Digital Health and Therapeutics course at Bioechnology, University of Tor Vergata, Rome.
- I am a member of School of Health UnitelmaSapienza Rome University Digital Health think tank.
- I am a member of Digital Medicine Society.
