

In the following pages, you will find the list of readings available for presentation. Each reading is assigned to one student. **Presentations last 20/30 minutes** and should include a detailed summary (possibly including the most important tables and graphs), a link with what we've done in class, and a critical assessment of the paper. Slides can be either in .pdf or .ppt format. After the presentation, you should send me the file by email, including your student ID.

Please send me your paper choice via email. Papers will be assigned on a first-come first-serve basis.
