## Written Exam – December 20, 2024

### INFORMATION ON GRADES, VIEW OF THE WRITTEN TEST AND EXAM REGISTRATION (**READ CAREFULLY!!!**)

- You can check your Grade by going to the course website in the “Teaching Material” section. There you can download an excel file called “AM MATRICOLA-GRADE”, in which you just need to put your Matricola (ID University Number) in cell B2 and the grade will appear in cell C2.
- The viewing of the written exam (which is **OPTIONAL**; in other words, it is not required) is possible **ONLY** on the following date: **January 8, 2025, from 9:30am to 10:00am** in my office room. It is not possible to set the viewing on another date or online, so do not send me emails asking to do it.
- Grades will be entered into Delphi soon. Those who intend to reject the vote must report it **EXCLUSIVELY** through Delphi (so not by sending me emails or through Teams), and I will modify the Delphi recording. Those who accept the grade do not have to do anything on Delphi (silence is equivalent to accepting the vote).
- In the event the student refuses the grade of the written exam, he or she can present himself/herself to future oral exams, **automatically losing the grade of the written exam**. Please note that the oral exam in “attending” mode necessarily include exercises to be carried out on Excel/Matlab.
