Topic 3: exercise

Francesca Marazzi

A.A. 2024/25

Exercise

Data: **data_exercise3.dta**. It is another subset of variables from the BHPS (all from 1991).

Using multivariate OLS regression, study the determinants of job satisfaction (variable name: **jbsat**).

1. Start from new Stata window and a blank do file
2. Take care of missing values
3. Export the regression analysis in a table
4. Comment you results
5. **MSc Economics** send your do file to fr.marazzi@gmail.com
