\*In addition to the 12 ECTS for electives, students have the opportunity to take extra elective courses. The credits earned for these extra courses do not contribute to the achievement of the ECTS required to obtain the degree but are only added to the student's career. The marks obtained are not included in the calculation of the final grade point average but are added to the Diploma Supplement. Students who want to take extra courses must send an e-mail to [study@mscba.uniroma2.it](mailto:study@mscba.uniroma2.it), at least 60 days before the exam date. Requests will be evaluated and approved by the Department Committee, and the decision will then be communicated to the students.

If students take extra elective courses without submitting a request, only the ones earned in chronological order and necessary to complete the number of ECTS required by the study plan, will be considered as elective courses and calculated into the student's grade point average.

All other electives taken after completing the required credits required will be considered **extra** elective courses won't affect the GPA.
