The Afternoon

Our 'Menu' system allows you to choose from 4 options to perfectly tailor your course to your own needs and preferences

Visits

Every day we propose a different visit in central London. You'll end up knowing the capital better than a Londonner.

Sports

BLC organises a variety of sports. All of these are 'free' and you can always borrow the necessary equipment.

Activities at the centre

For example, dance and theatre workshops (in English - of course); in the 'club' room newspapers and drinks are freely available. Or you could just listen to music, play billiards, ping pong...

Lectures

Each lecture studies a different aspect of English life and culture. We may, for example take you to parliament and compare the British system with the USA or other European countries. Or we might go to the law courts to compare ours with other systems of justice.

In the evening

Numerous parties and evening events are organised.

Excursions

At least 2 full days are devoted to excursions to towns like Oxford, Cambridge, Brighton, Winchester, Bath...

Classes

- 3 or 5 hours classes per day (including 2 optional hours)*
- Multiple ability levels (from beginner to bilingual)
- Experienced and well qualified native English teachers
- Small study groups
- A varied and stimulating curriculum

On arrival we'll assess your English and place you in a study group of the appropriate level

Each working day you can attend 3, one hour, classes: Conversation; Comprehension; and General English. Small tutorial groups make it easy and enjoyable to learn quickly.

*You can make your schedule more intensive by participating in the afternoon lecture programme.

The linguistic programme is very complete. To make learning easier and more enjoyable, coursework is linked to the you daily experiences in London.

At the end of the course a certificate will be issued to students who have completed the programme. This can be very useful for future job applications.

Centres

Each centre is close to a London underground station providing fast and easy access to the 'West End' and the sights, shops and monuments which have given London its worldwide reputation.

Harrow-on-the-Hill is probably best known for its famous public school which has educated kings and prime ministers alike but it is also remarkable for its magnificent architecture.

Pinner has developed from a sixteenth century village and many of the old world pubs and shops still thrive in a town centre surrounded by parks, woodlands and sports grounds.

Rickmansworth is equally picturesque and has the advantage of being close to a large and beautiful lake which is ideal for a number of watersports.

Northwood is an elegant residential area bordered on three sides by very attractive golf clubs, including the internationally famous Moor Park.

Accommodation

A good host family is the key to a successful course - This is our guiding principle.

Your local organizer takes great care to retain only families where students will be happy and comfortable.

How we select your host family: a guarantee of satisfaction

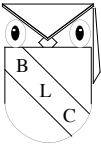

Each family is interviewed and their home fully inspected. They will only be chosen if we are totally convinced that they would welcome as if you were a member of their own family. The vast majority of our families have received students for many years but even those who have joined us more recently are very aware of their role. Your local organizer stays in contact with the families throughout the year. This enables him to get to know them very well and to ensure that they maintain the high standards required.

We also place great importance on the reports we receive from students concerning their host families. At the end of each course, we ask students to complete a questionnaire on every aspect of their stay in England. It is BLC policy that only the families who continue to receive the highest marks are retained for future students. The care that we take in selecting our families and maintaining the quality of the welcome they offer is in itself a guarantee of satisfaction.

The best way to quickly improve your English

Living with a good English family is certainly the ideal complement to the programme of classes. By constant exposure to the language as it is spoken by the inhabitants of the country, you will have plenty of occasions to put practice your newly acquired linguistic skills. Not only will this help you to develop a rich and varied vocabulary but you will also find yourself learning the everyday idiomatic expressions with a surprising ease.
