The Supervisor expresses his/her (obviously binding) decision on the work done by the graduating student, via Delphi. It is therefore not necessary to present the assignment of the thesis, even though this document is still present within the procedure dedicated to all University programmes.

The digital review of the plan is not yet active, therefore indications provided by Delphi on any missing exams are not to be taken into account, except to verify, of course, that all exams taken are those required by your study plan in order to apply for graduation.
