CLEMIF (Second Cycle Degree) in Italian	5-6 november	24 august	28 september	5 october	28 october

* Your documents should be *scanned* and sent in PDF format to the Student Secretariat (to segreteria-studenti@economia.uniroma2.it); smartphone photographs will not be accepted (several apps that create suitable PDFs are available). The subject of the email message should be your **surname** and **name**, **student number** and your **course code** (M18, M19, M20, M21, L78, T16, H73, etc. **NOT** L18, L33, L16, L56, L77, L90, etc.) in the body of the message the same **subject** information and the following documents in attachment:

- **Thesis application form** (downloaded from Delphi), **signed at the end of the page (The University no longer provides the reserved space for signing) and scanned in PDF**;
- **Valid personal ID** in PDF;
- **AlmaLaurea receipt** in PDF (**essential** for the successful conclusion of the procedure relating to the graduation application.);
- If applicable, **additional declaration** * for obligatory tests and exams not yet accredited on your personal page.

* For extra activities (where required) and for exams not yet accredited in Delphi, please provide any useful reference in a supplementary declaration in PDF (for extra activities, include the period of activity, and if known, date of issue (even approximate), of final approval; for exams, in addition to the name, include the date and the name of the professor).

Sample e-mail:

from yourname@mail.com

to segreteria-studenti@economia.uniroma2.it

Subject: *Last name, first name, student number 1234567, course code M18 (or other course code valid)*

Text: *Last name, first name, student number 1234567, course code M18 (or other course code valid)*

Please make sure to carefully **keep a copy** of the email sent to segreteria-studenti@economia.uniroma2.it as proof that your graduation application has been submitted. The application is also shown as *active* on your personal page in Delphi.

How to check whether the graduation application submitted on the Delphi platform is active?

Delphi Menu: GRADUATION EXAM / GRADUATION APPLICATION MANAGEMENT

- If the menu contains the various options: Reprint graduation application, Print validation receipt, Cancel graduation application, etc., then the application has already been submitted and is certainly active.
- If the menu does not contain any option but only the Instructions (The student must be in good standing from an administrative standpoint, in particular they must... etc., etc.), then the graduation application has not been submitted and is not active.

If you decide to **withdraw** from the graduation session, you must first cancel your application from Delphi. At the same time, please send an e-mail notification both to segreteria-studenti@economia.uniroma2.it and to the Programme Office of your Course <https://economia.uniroma2.it/segreteria-didattiche/>. This e-mail must include a scanned copy of a valid personal ID and include the reason for the withdrawal in the subject line.

Sample e-mail:

from yourname@mail.com

to segreteria-studenti@economia.uniroma2.it

Subject: *Last name, first name, student number 1234567, withdrawal from the 15 (or other date) October graduation session*

Text: *Last name, first name, student number 1234567, course code M18 (or other code valid). I declare my withdrawal from the ordinary graduation session scheduled for 15 (or other date) october 2026. I am attaching a copy of a valid identity ID.*

The Supervisor expresses his/her (obviously binding) decision on the work done by the graduating student, via Delphi. It is therefore **not necessary** to present the assignment of the thesis, even though this document is still present within the procedure dedicated to all University programmes.

The digital review of the plan is not yet active, therefore indications provided by Delphi on any missing exams are not to be considered, except to verify, of course, that all exams taken are those required by your study plan, in order to apply for graduation.

When submitting your graduation application on the Delphi platform, remember to specify the exam chosen for your graduation thesis (not the subject of your thesis), using the exact same denomination with which it appears in the Delphi list of 'recorded exams'

For students who had already submitted an application in July 2026 or even in one of the previous sessions without subsequently obtaining the degree: the 16-euro graduation bulletin corresponds to the virtual revenue stamp to be 'applied' to the graduation application; consequently, in the event of submitting a new application, the 16-euro payment must be made anew from scratch.
