in  
Economics**

**Two-Year  
Graduate  
Program**

## Overview

The **Master of Science in Economics (LM-56)** at Tor Vergata University of Rome is a **program of scientific excellence** that offers training in English for a **career as a professional economist** in government entities, banks, international organizations or private sector firms such as economic consultancies.

The **advanced** and **quantitative** nature of the program also serves as a solid foundation for PhD programs and other research-focused roles.

Lecturers include researchers with a well-established international reputation and an impressive track record of publications in international journals in Economics, Mathematics and Statistics.

The Department of Economics and Finance, to which the MSc in Economics belongs, is among the leading departments in the fields of Economics, Finance and Statistics according to some of the most important national (VQR) and international (RePEc, QS) rankings.

## Extra Activities

We provide useful, practical training activities through the organization of free courses including **Python** and **LateX** and for **Thomson Reuters** certifications.

Moreover, selected students will receive financial support to participating in the **Econometric Game** organized by the VSAE.

## Dual Degree Opportunities

Our **first year students** have the possibility to apply to this international program.

The selected students will spend their second year at the **University of Gothenburg** or at the **University of Konstanz**.

The selection is based on merit and eligible students will receive **financial support**.

## Students Awards

Every year the MSc. in Economics reserves a monetary award to the **best-performing first-year students and graduates**.

## Placement

Our program prepares young, **successful economists** to pursue a career in economic research or at national and international institutions, universities and consulting firms.

**95% employment within one year after graduation.**

Our students have found placements at institutions and companies such as ECB, FAO, IFAD, Lear, OECD, World Bank. Some of our graduates continue their studies in qualified PhD programs at leading universities worldwide.

The program website provides more detailed information about our **Alumni**.

## Admission Requirements

Applicants must hold a three-year undergraduate degree. During the selection process, preference is given to those who have earned a degree in Economics or in quantitative degrees.

**A strong background in mathematics and/or statistics is required.**

Candidates must complete the on-line application form and submit their documents.

Admission to the MSc. in Economics is conditional to the evaluation by the Admission Board. This assessment is made on the basis of the academic records, curriculum vitae, personal statement and motivation, references, etc. according to the procedure specified in the program's annual call for application.

Visit our website for further information.

## Tuition Fees and Scholarships

Tuitions fees depend entirely on each student's **family income** (as certified by the ISEEU - Equivalent Economic Situation Indicator). A **Fee Simulator** is available on our website.

We support students who apply for the **DiSCo LAZIO scholarship, Italian Government study grants** and other scholarship opportunities.
