# ECONOMICS

## Two-Year Graduate Program

Department  
of Economics and Finance

## Overview

The Master of Science (LM-56) in Economics is a two-year full-time program of **advanced quantitative methods for economics**, entirely taught in English and designed for students with high drive and potential, who wish to acquire the tools and knowledge to undertake advanced economic research.

**Mentorship and academic support** are offered to students throughout their time at MSc in Economics.

Lecturers include professors and researchers with a well-established international reputation and an impressive track record of publications in international journals in Economics, Mathematics and Statistics.

The **Department of Economics and Finance**, to which the MSc in Economics belongs, is among the leading departments in the fields of Economics, Finance and Statistics according to some of the most important national (VQR) and international (RePEc, QS) rankings.

## Students Awards

The MSc in Economics provides financial support and prizes to encourage excellence:

- Study grants for best performing first-year students.
- GRE reimbursement.

## The program in brief

The academic program includes applied courses in environmental economics, health economics, labour economics, industrial organization, law and economics, public economics and public choice, besides fundamental courses in microeconomics, game theory and incentives, macroeconomics and business cycle, econometrics, Stata, Matlab, Python and time series. Students have the option to choose from a wide range of electives.

Moreover, we provide useful and practical training activities through the organization of free courses including Python, LaTeX and for Thomson Reuters certifications. Every year we organize seminars for Job and PhD orientation and Alumni Meetings.

Selected students will receive financial support to participate in the Econometric Game organized by VSAE each year.

## Tuition Fees

The annual tuition fee is between 0 and 4.250€, depending on family income as certified by the ISEEU indicator. Additional info can be found in the Student's Handbook.

Students who obtain an Italian bachelor degree with a final grade of 110/110 have a 10% fee reduction.

## Admission Requirements

Applicants must have earned a three-year undergraduate degree. To be admitted, candidates must have an adequate knowledge of economic theory and quantitative analysis.

Admission to the MSc in Economics is conditional upon a positive evaluation by the Admission Board. This assessment is made on the basis of the academic records, CV, and the result of the interview, according to the procedure specified in the call for applications.

## Placement

Our program prepares young, successful economists to pursue a career in economic research or at national and international institutions, universities and consulting firms.

Our students have found placement at institutions and companies such as ECB, FAO, IFAD, Lear, OECD, World Bank. Some of our graduates continue their studies in qualified PhD programs at leading universities worldwide.

95% of our graduates find placement within one year after earning their degree. Placement of graduates in recent years can be found on the MSc in Economics Alumni webpage.

## Double Degree Opportunities

Thanks to Double Degree agreements with the [University of Gothenburg](#) (Sweden) and the [University of Konstanz](#) (Germany), our students have the opportunity to improve their knowledge and skills in a multicultural environment.

First-year students may apply and those selected will spend their second year at the partner university of their choice. The selection is based on merit.

Students are awarded both the Master of Science in Economics from Tor Vergata University and the Master of Science in Economics from the partner university.
