University
of Rome
Tor Vergata

Master of Science
in
Economics

Two-Year
Graduate
Program

Overview

The **Master of Science in Economics (LM-56)** at Tor Vergata is a **program of scientific excellence** and offers training in English for a **career as professional economist** in government, central banking, international organizations or private sector firms such as economic consultancies.

The **advanced** and **quantitative** nature of the program also serves as a solid foundation for PhD programs and other research-focused roles.

Lectures include researchers with a long track record of publications in international journals in Economics, Mathematics and Statistics, and a well-established international reputation.

The Department of Economics and Finance to which the MSc in Economics belongs is among the leading departments in the fields of Economics, Finance and Statistics according to some of the most important national (VQR) and international (RePEc, QS) rankings.

Activities and Extra Activities

To integrate theory and practice, we organize free courses including **Python** and **LateX** and for **Thomson Reuters** certifications.

Moreover, selected students will receive financial support for participating to the **Econometric Game** organized by the VSAE.

Dual Degree

Our **first year students** have the possibility to apply to the international program.

The selected students will spend their second year at the **University of Gothenburg** or at the **University of Konstanz**.

The selection is based on merit and the students will receive a **financial support**.

Students' Prizes

Every year the MSc in Economics awards the **best performing students** with financial prizes reserved to the first year students and to the graduates.

Placement

Our program has formed young **successful economists** pursuing a career in economic research or at national and international institutions, universities and consulting firms.

95% of employment within one year after graduation.

Our students have found placements at institutions and companies such as ECB, FAO, IFAD, Lear, OECD, World Bank. Some of our graduates continue their studies in qualified PhD programs at worldwide leading universities.

Refer to the program website for more detailed information about our **Alumni**.

Admission Requirements

Applicants must hold a three-year undergraduate degree with preference to students from Economics or quantitative degrees.

A strong background in mathematics and/or statistics is required.

Applicants are required to complete the on-line form and submit their documents.

Admission to MSc in Economics is conditional to the evaluation by the Admission Board. This assessment is made on the basis of the academic records, curriculum vitae, personal statement and motivation, references, etc. according to the procedure specified in the call for application.

Visit our website for further information.

Tuition Fees and Scholarships

Tuitions fees depend on **family income** (as certified by ISEEU -Equivalent Economic Situation Indicator). A **Fee Simulator** is available on our website.

We support students with application for **Laziodisu scholarships, Italian Government study grants** and other scholarship opportunities.

Economists want to make the world a better place
