

**CONSULTATION QUESTIONNAIRE FOR
COMPANIES AND ORGANISATIONS THAT ARE REPRESENTATIVE OF PRODUCTION AND
PROFESSIONS
(Art. 11 DM 270/04)
2021/2022 ACADEMIC YEAR
Department of Economics and Finance**

The **Master of Science Degree in European Economy and Business Law** (MSc EEBL), with a ministerial degree category of **LM-90 in European Studies**, is geared toward students who are interested in acquiring more knowledge regarding the economic and legal aspects of the process of European integration. The programme is taught entirely in English over a period of two years and begins with a review of statistics, mathematics, micro and macroeconomics. Students integrate their core academic experience by participating in events and moments of exchange with professionals from various sectors. Moreover, during their studies, students may carry out a training activity in Italy or abroad that can be a curricular internship of at least three months or another activity aimed at acquiring additional skills useful for entrance into the workforce. This multidisciplinary degree programme provides useful training in areas such as soft skills and computer programs that enable students to hone their analytical skills, develop problem-solving skills and apply their acquired expertise in an international context. For further details: <http://economia.uniroma2.it/master-science/eebl>.

Political Science	Yes	
Project Planner	Yes	

Research	Yes	
-----------------	-----	--

Observations and suggestions:

Is the three-month internship activity sufficient for preparing graduates to enter the workforce?

Yes	More yes than no	More no than yes	No
	Yes		

Observations and suggestions:

3 months would be the absolute minimum _____

In your field of expertise, how important are the following competencies?
(evaluation from 1 to 10, with 10 as the highest rating)

Specific competencies	Rating
Ability to create a presentation using computerized instruments (i.e. PowerPoint)	10
Ability to elaborate projects for the participation in calls and tenders	8
Use of statistical software	8
Ability to access big data on internet	10
Use of econometrics software	7
Ability to create audio-visual material	6
Drafting of reports	10
Use of Excel	10
Use of Python	Unsure
Use of STATA	Unsure
Use of DMelt	Unsure
Use of OpenRefine	Unsure
Use of Orange	Unsure
Use of R	Unsure
Use of Tableau Public	Unsure
Use of Trifacta Wrangler	Unsure
Use of LaTeX	Unsure
Use of Solver	Unsure
Use of Microsoft Excel VBA	8

Use of KNIME	Unsure
Use of other software (indicate which software)	Share Point
Other competencies (indicate which competencies)	

In your field of expertise, how important are the following competencies?
(evaluation from 1 to 10, with 10 as the highest rating)

General competencies	Rating
Problem solving	10
Innovation	10
Spirit of initiative	10
Goal-oriented	7
Operational control	10
Operational flexibility	10
Good at interpersonal relationships	10
Verbal communication	10
Teamwork	10
Self control	10
Self esteem	10
Flexibility toward different people and situations	10
Dedication to the organisation or company	10
Other competencies	

Do you have other observations and suggestions to share?
