

March and April 2026 Graduation Sessions

Last ordinary graduation session (of the three scheduled) for the Academic Year 2024-'25

Exceptionally, this may also constitute the first (of the three scheduled) ordinary graduation session for the Academic Year 2025-26: in this case, all scheduled installments must be settled, even if their due date is subsequent to the graduation date.

Two exam sessions for the winter term: January 7 – February 13, 2026 (graduating students are eligible to sit for both sessions).

After completing the graduation application on Delphi, the link “Registrazione su AlmaLaurea” (AlmaLaurea Registration) will be activated for the completion of the related questionnaire.

Payment of the 16 Euro bulletin (reason code 602): virtual revenue stamp for the graduation application. Since this is a virtual stamp linked to the application itself, and not to the degree, in the event of a renewed graduation application (following a previous application that was subsequently withdrawn), the payment must be renewed.

<i>Corsi di laurea</i>	<i>Data laurea</i>	<i>Apertura Delphi</i>	<i>Invio documenti via e-mail (entro le ore 23,59)*</i> <i>dal al</i>		<i>Upload tesi (Delphi)</i> <i>(entro le 23,59)* del</i>
Bachelor's Degree program taught in Italian	11 o 12 march	<i>13 January</i>	5 February	12 February	4 march
Business Administration & Economics	12 march	<i>13 January</i>	5 February	12 February	4 march
Global Governance	20 march	<i>13 January</i>	13 February	20 February	12 march
Finance and banking	26 march	<i>13 January</i>	19 February	26 February	18 march

CLEM Master's Degree	1-3 april	<i>13 January</i>	24 February	1 march	24 march
CLEMIF Master's Degree	8-9 april	<i>13 January</i>	1 march	8 march	31 march

* Documents to be sent via e-mail (to segreteria-studenti@economia.uniroma2.it), properly scanned into individual PDF files (no photos, no Cloud Storage files subject to expiration, as the graduation application must remain permanently on record), with the subject line containing the student's last name and first name, student ID (matricola), and degree program code (e.g., M18, M19, M20, M21, L78, T16, T17, H71, H73, H75 etc., and not L18, L33, L16, L56, L77, L90, which are degree classes rather than specific program codes); the body of the e-mail must repeat the subject line and list the attached documents:

- **Graduation application:** (downloaded from the Delphi portal), signed and then scanned into a PDF file.
- Valid personal identity document: scanned into a PDF file.
- **AlmaLaurea:** [Registration/Questionnaire confirmation].

In the event of exams or extra activities not yet credited: please remember to report them either in the body of the e-mail or during the acquisition phase of the graduation application on Delphi, specifying the full name of the exam, the date it was passed, and the name of the professor in charge.

In the event of significant delays: (at least fifteen days having passed since the exam date), please notify the educational office (segreteria didattica) of your degree program.

E-mail Example: From: RossiPaolo@mail.com To: segreteria-studenti@economia.uniroma2.it Subject: Rossi Paolo, student ID 0300.000, Degree in M18
Body: Rossi Paolo, student ID 0300.000, Degree in M18. Attachments: (followed by the list of all documents attached as PDFs).

Legal Notice: An e-mail correctly sent to segreteria-studenti@economia.uniroma2.it (in the absence of any error notifications from the mail server) constitutes proof of submission of the graduation application, equivalent to the "active" status of the application within the student's personal Delphi portal page.

Please retain with due care the email sent to segreteria-studenti@economia.uniroma2.it as formal proof of the submission of your graduation application. This application, moreover, is already registered as active within your personal Delphi student portal.

How to verify if the application acquired on Delphi is active?

Delphi Menu: GRADUATION EXAM / GRADUATION APPLICATION MANAGEMENT

- If the menu displays the following options: Reprint graduation application, Print validation receipt, Cancel graduation application, etc., then the application has been successfully acquired and is definitively active;
- Conversely, if no options related to the graduation application are visible, it clearly indicates that no application has been submitted or recorded."

Those graduating in the third and final session of the A.Y. 2024-25 cannot, obviously, choose as a supervisor a professor who has formally taken office as the course chair only starting from the following A.Y., specifically from 2025-'26.

In this regard, it is worth remembering that the so-called "cautelativa" (precautionary) application is not, formally, an enrollment application, but rather a request to freeze the enrollment deadlines (allow me time to determine if I can graduate by the last session of the 2024-'25 academic year, thus relying on the 2024-'25 enrollment already obtained, without therefore finding it necessary to renew enrollment for the new academic year, namely 2025-'26).

Procedures for withdrawal, thesis approval, and correct data entry:

- **Withdrawal from the graduation session:** In case of withdrawal, please cancel the application on the Delphi portal and simultaneously notify (via e-mail) both the student office (*segreteria-studenti@economia.uniroma2.it*) and the educational office (*segreteria didattica*) of your degree program, attaching a scanned copy of a valid ID.
- **Thesis approval:** The supervisor's acceptance of the thesis takes place exclusively through the thesis upload page on Delphi. Therefore, the "thesis assignment form" (*modello di assegnazione tesi*) is no longer required, even if it appears on the portal for other faculties.
- **Degree plan consistency:** The digital verification of exam consistency with the adopted study plan is not yet active; however, the exams must strictly correspond to those required by the specific educational offer. Therefore, any marginal notes or warnings provided by Delphi regarding this consistency should be disregarded.
- **Data entry on Delphi:** When acquiring the graduation application, please remember to enter the **full name of the exam** and not its.
- Similarly, enter the **general subject** of the thesis and not the specific title (e.g., *MICROECONOMICS* and not The Balance between Growth and Sustainability; *COMMERCIAL LAW* and not The Classification of the Employment Relationship within Companies).
