REFINITIV WORKSPACE

FOR STUDENTS

Refinitiv Workspace:

Be a step ahead of your peers

Technology and performance

- Significantly lighter install that reduces deployment time and cost
- Interface designed from latest web browser technology allowing seamless onsite and remote access
- Universal access on Windows and Mac OS, mobile and Microsoft Office

Intelligent and smarter

- Adaptive framework for Banking, Wealth Advisory, Asset Management and Trading
- Faster, smarter and more relevant results, with instant previews as you type
- More powerful structured and natural language search driven by machine learning

Open platform for workflow

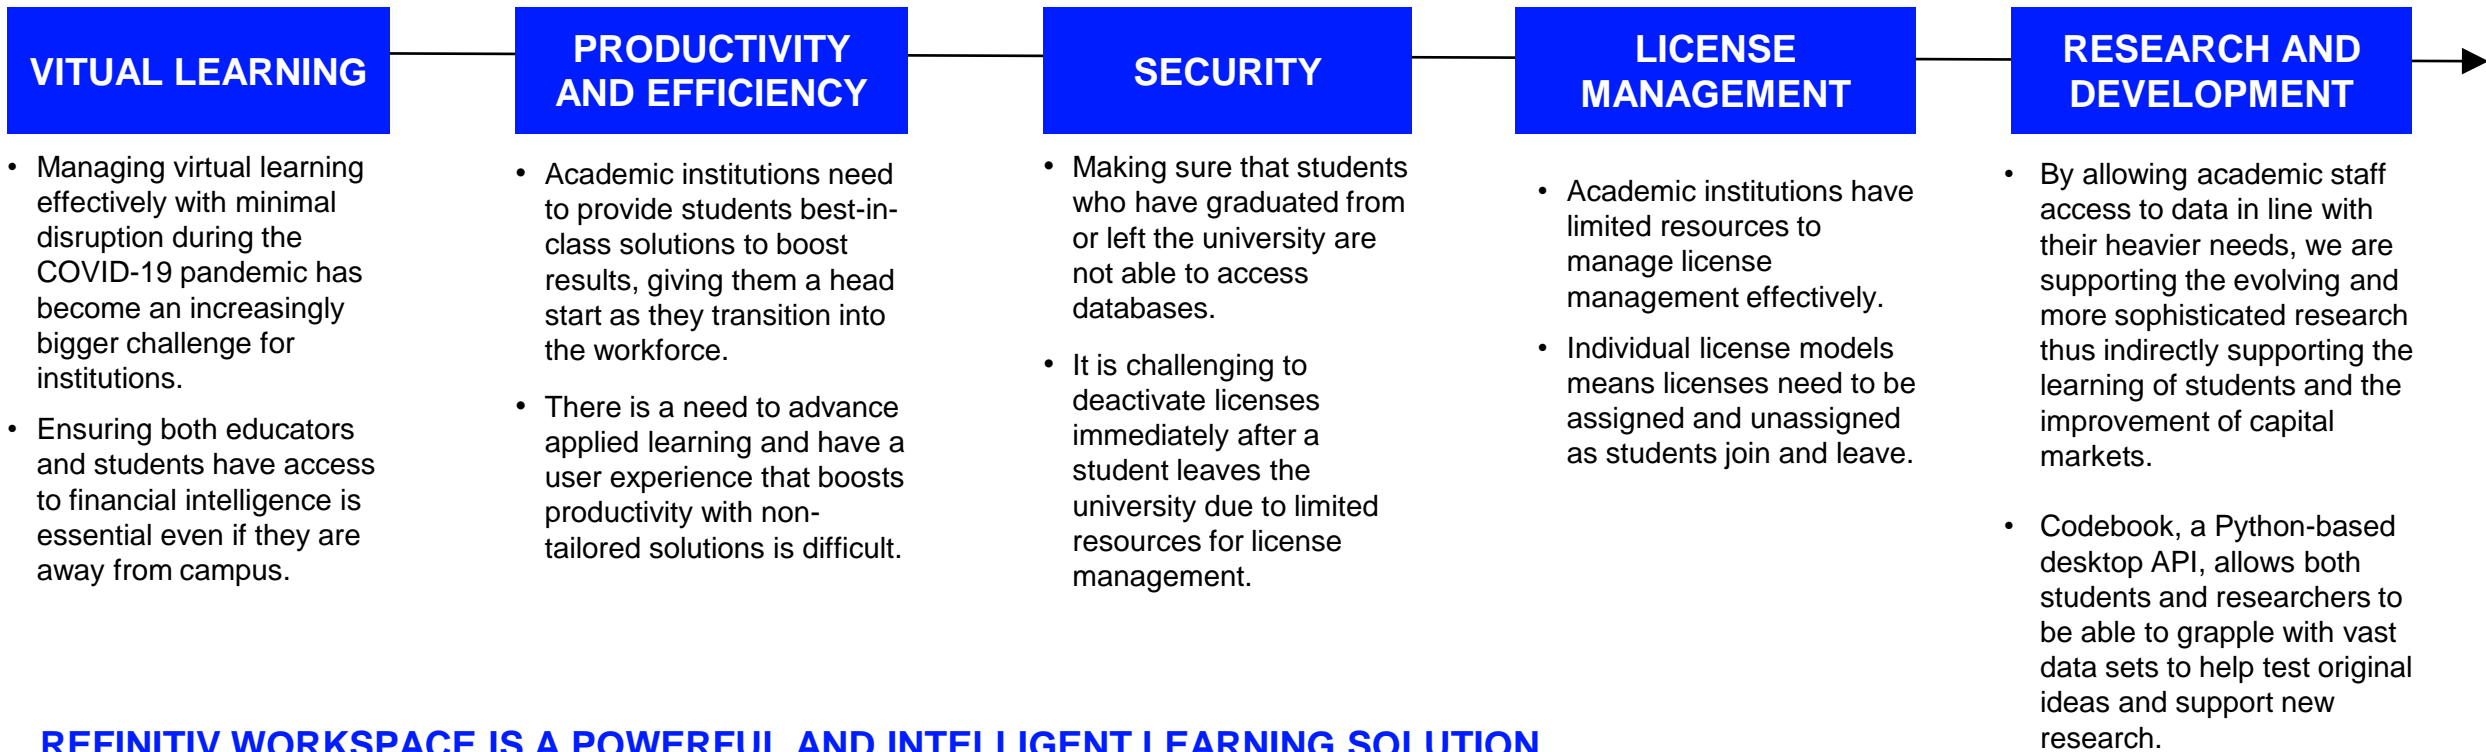

- Seamless, interoperable and collaborative data-powered workflows
- Sophisticated models offer unique insights beyond spreadsheets
- Data access across any in-house or third-party applications on your desktop

Tailored user experience

- Familiar browser paradigm and navigation menus to access most relevant tools
- Become certified and get a leg-up as you move into the workforce and benefit from a stronger curriculum that fosters applied learning
- Support research and learning by accessing industry leading data sets

What challenges are academic institutions facing today?

REFINITIV WORKSPACE IS A POWERFUL AND INTELLIGENT LEARNING SOLUTION THAT MEETS THE NEEDS OF BOTH STUDENTS AND EDUCATORS

- Symbology
- Terms and conditions

Analytics

Unique data sets support idea generation, due diligence and decisions.

- Deal analytics
- StarMine® quantitative analytics and models

NEXT-GENERATION FINANCIAL INTELLIGENCE

+1.2%

Bringing financial intelligence to academic institutions

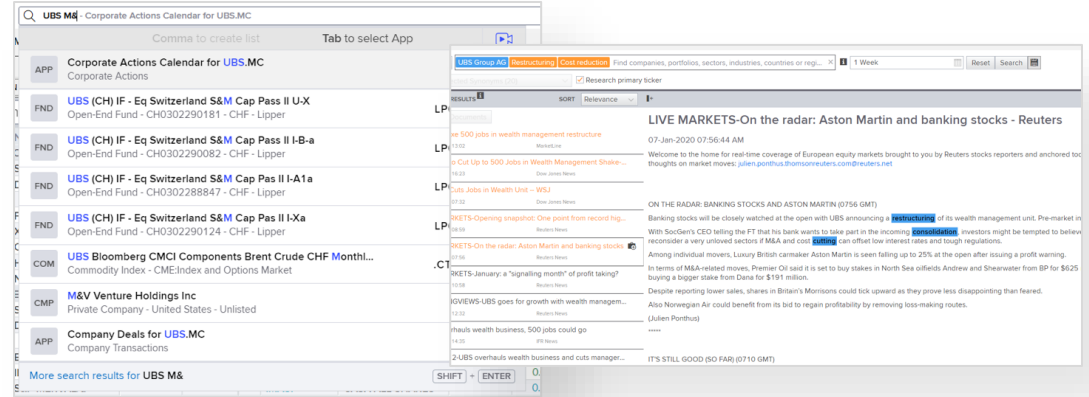

1

Boost your research with AI-powered search

We have built a much smarter, real-time financial market search facility that returns highly relevant results with minimal input.

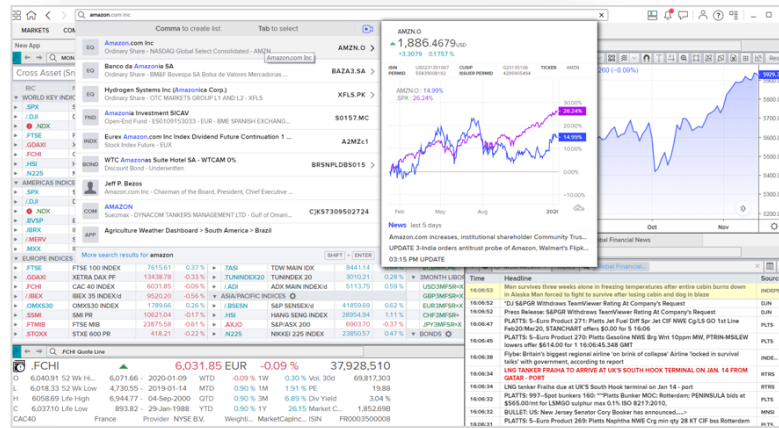

With AI-powered intelligent search, students and staff you can find the content they are looking for straight away, so that that they can focus on what's important and boost their research and learning.

2

Snapshot previews display key info quickly

Designed to show preview results with minimal screen interruption or searching, snapshot previews enables students and academic staff to access the content they are looking for straight away, without even having to click search.

Bringing financial intelligence to academic institutions

3

Enhanced multi-platform experience

Researchers, academic staff and students can continue their research seamlessly even away from university by accessing Workspace from their personal desktops or tablet via workspace.refinitiv.com/web

4

Open and agile

Researchers and students can conduct deeper data modelling and analysis with modern APIs and popular languages such as Python, helping them broaden their knowledge of the markets.

They can also access the raw data, extract it, build it into models and applications – open access to our data – to drive innovation and your research.

Single sign-on and license management

- **Single sign-on (SSO)** ensures users will have a seamless experience overall. We can fully integrate with internal network/IT systems so that one single password is used to access all applications, including Refinitiv Workspace.
- Equally, SSO also gives educators greater control and reduces security concerns as it facilitates the ability to manage all applications on user profiles.
- **The License Management** tool is offered to accounts with 100+ users. Managed by a single user, the tool allows a group administrator to approve individual licenses allocated to the account. Customers benefit hugely because they can manage their user base and associated Refinitiv Workspace entitlements.
- The Admin Tool, is for the end-user to request access for Refinitiv Workspace. The students complete the form through the Admin Tool and the license manager decides which users are approved.
