

Master of Science in Finance and Banking

WHEN THEORY MEETS PRACTICE

**A series of meetings with experienced professionals
on key topics in Finance and Banking
organized by Stefano Herzel (University of Rome Tor
Vergata) and Luca Lotti (Cassa Depositi e Prestiti)**

5. BANKING PRUDENTIAL REGULATION

Luca Lotti

(CDP, Head of Risk Management)

Francesco Guerrieri

(CDP, Head of Credit and Counterparty Risk)

The prudential regulation of banks has become increasingly important and complex over the years, with major implications for business and risk management. After an overview of the reasons why prudential regulation is needed in the banking sector, we summarize the main features of the regulatory frameworks established over time by the Basel Committee on Banking Supervision and provide an overall scheme of the current regulatory environment.

Thursday, April 12

14:30-16:30

Room "Sala Scacchi"
