University students coming from other universities or from courses of study of other Faculties/Macroareas of the "Tor Vergata" University of Rome, must scan digitally and legibly the documentation proving the request for inbound transfer (if coming from degree courses not related to the Faculty of Economics of our University) or

transfer (if coming from other universities) and send it, along with the request for a confirmation of receipt, to The following email address [segreteria-studenti@economia.uniroma2.it](mailto:segreteria-studenti@economia.uniroma2.it) and [global.governance@uniroma2.it](mailto:global.governance@uniroma2.it) by the following dates:

- **from 1 August 2023 to 31 December 2023.**

It will be the responsibility of the Student secretariat to send, together with the request for a confirmation of receipt, the further procedures to be carried out on the University's Delphi site.

### **ART. 11 - Candidates with a qualification obtained abroad and non-EU candidates residing abroad**

**Candidates with a qualification obtained abroad will be admitted to the selection process subject to conditions.**

In the case of successful candidates, they must proceed to enrolment by following the instructions available at the following links:

- <https://web.uniroma2.it/en/percorso/admissions>
- <https://en.uniroma2.it/admissions/how-to-enroll/>

Non-EU students resident abroad, in order to obtain a visa, must follow the procedure for the submission of the pre-enrolment application, through the University portal (<https://www.universitaly.it/>) by July 31<sup>st</sup> 2023 and then contact their diplomatic representative to complete the required procedures.

**In the event of irregularities in the documentation provided relating to the foreign qualification, the student's enrolment will be automatically cancelled.**

In general, in order to enrol on three-year degree courses and single-cycle master's degree courses, students must have a secondary school diploma obtained abroad after at least **12 years of education**.

If qualifications obtained after less than 12 years of education are to be assessed, the following may be applied as an alternative:

1. Academic certification of successful completion of all the examinations required for the first year of **university** studies in the case of an 11-year local school system, or academic certification of successful completion of all the examinations required for the first two academic years in the case of a 10-year local school system;
2. An official Italian or foreign post-secondary qualification from a non-university education institution in a subject related to the chosen course, with one year's duration in the case of a local 11-year school system, or two years' duration in the case of a local 10-year school system;

3. Certifications from other Italian universities regarding the passing of foundation courses, which make up for the missing years of education;
4. Certifications from other Italian universities relating to the completion of foundation courses, even if lasting less than one academic year, which confer the appropriate knowledge, skills and abilities to attend the chosen course of study at the same institution.

The above-mentioned additional and complementary certifications to secondary school qualifications obtained with less than 12 years of education, allow in Italy only enrolment in the first academic year and cannot be evaluated for enrolment with course shortening, in order to avoid double evaluation of the same qualifications. Certificates of successful achievement of preparatory courses may also be used to meet the additional requirements for admission to courses that differ from the years of education, but in any case they cannot make up for the absence of a "Diploma of upper secondary school or other qualification obtained abroad, recognised as suitable" (DM 270/2004 and DPR 212/2005) or the passing of any academic aptitude test that may be required for admission to the university of the country of origin.

In the calculation of the twelve years, the pre-school year is to be considered, where it occurs and is officially recognised as an integral part of the school curriculum at national level, provided that attendance of this year is compulsory and an integral part of the curriculum and that the programme provides for the teaching of reading and writing in the language of the country and the first elements of arithmetic.

For further information on the qualifications validity obtained abroad, see the ministerial procedures published at the following link: <http://www.studiare-in-italia.it/studenti stranieri/> (click on "*Disponibile la versione in lingua inglese*" for the English version). In particular, it is strongly recommended to consult **Attachment 1** and **Attachment 2** in case of a US qualification, a qualification from the United Kingdom, a qualification issued by university institutes of ecclesiastical studies based in Italy and approved by the Holy See, an Italian qualification obtained in border schools or Italian sections of foreign schools, an International Baccalaureate qualification, from the Republic of San Marino, obtained in foreign schools operating in Italy or European schools.

### **IMPORTANT:**

In order to finalise the enrolment, foreign diplomas must be accompanied by the **Statement of Comparability** issued by **CIMEA (Centro Informazioni Mobilità Equivalenze Accademiche)**, who got an agreement with "Tor Vergata" University of Rome, to be requested at the following link:

<https://cimea.diplome.eu/torvergata/#/auth/login> or by the Dichiarazione di Valore, legalization and official translation into Italian of the qualification issued by the Italian diplomatic representation competent for the territory. Be aware that Tor Vergata University of Rome reserves the right to request additional documentation when submitting a Declaration of Value with legalized translation of the final title.

All documents containing sensitive data will be kept by the CARIS office in compliance with the regulations in force.

In particular:

- Students with a disability equal to or greater than 66% or with recognition of disability pursuant to art. 3, paragraphs 1 and 3 of the law of 5 February 1992, n. 104 are totally exempt from payment of university fees and contributions for enrolment and must follow the same procedure 'on-line enrolment provided for all students, self-certifying the disability in the same application form. In order to proceed with the enrolment procedure, they will then have to deliver or send to the CARIS Secretariat all the documentation issued by the competent authorities certifying their disability status.
- It is also possible, following the same procedure, to request a 20% discount on the amount of the second instalment for students with a recognised disability between 46% and 65%.

In case of non-presentation or ineligibility of the documentation submitted by the student, it will be required to pay all university fees and contributions.

During the course of studies, the request for dispensatory measures and compensatory tools for each individual course to be followed or exam must instead be made with specific written requests to CARIS. By law, there is no exemption from payment of fees for students with DSA, who may however request dispensatory measures and compensatory tools for the entrance test and for their university course by following the same procedures for accreditation and delivery of documents as outlined above.
