A GLOBAL WORLD NEEDS UNIVERSAL IDEAS
let me first thank you for your interest in our Tor Vergata University of Rome, founded in 1982.

Our six Schools (Economics, Engineering, Law, Humanities and Philosophy, Medicine and Surgery, Mathematics, Physics and Natural Sciences) are located on a 600 hectares Campus. Each School has its own library, teaching and research facilities, reading rooms, laboratories, canteens and green areas where students can experience a real Campus life.

The School of Medicine and Surgery is part of the important University Hospital compound - the Policlinico Tor Vergata (PTV), a world-renowned center of excellence in research and patient care.

In little more than 30 years Tor Vergata has become one of the most important Italian public universities: almost 30,000 students enroll in 106 graduate programmes (Bachelor, MSc or MA, one-cycle), and approximately 140 postgraduate courses, 47 specialization schools and 32 Ph.D. programmes, 22 courses are “international”, and most of our Ph.D. programs are taught in English.

This is the reason why Tor Vergata welcomes almost 3.000 students every year from all over the world.

Our Campus is about 30 minutes away from the historic city center of the “Eternal City”, by means of the subway system, and 20 minutes away from the peaceful Southern area of the Castelli Romani, famous for its vineyards and hillside landscape.

Studying in Rome will add to the quality of your studies an unrivalled cultural perspective. In a city that is over 2,000 years old, you can see the passing of time simply by strolling around its center: ancient Rome, the Middle Ages, Renaissance, Baroque, Neoclassicism and Contemporary Rome are ready for you to discover.

In this center for inter-religious dialogue, and the place where the founding Treaty for the European Union was signed, you will enjoy a gentle weather, arts, music, fashion and food.

Let me therefore conclude by saying: «Rome embraces Tor Vergata: let Tor Vergata embrace you!».

I sincerely hope you will consider our program Global Governance for your educational choice.

Yours truly,

ORAZIO SCHILLACI
Rector, University of Rome Tor Vergata
From the economic crisis of the past decade to the pandemic one of the last few years we have learned that more solutions could be envisioned by looking at the world from different yet complementary perspectives. Fast-moving scientific innovation is rapidly changing the way in which people share their experiences and friendships, the way in which nations debate and cooperate and the way in which companies invest and create value.

Facing such unusual challenges is the task of future leaders who must be able to interact with experts of all fields of human knowledge. National and international political institutions, international organizations, non-governmental organizations, enterprises and global economic subjects are ever-increasingly seeking profiles with interdisciplinary knowledge and the appropriate soft and social skills.

The Political Sciences B.A. Degree in Global Governance is open to students from all over the world with multidisciplinary interest and satisfies these prerequisites by involving professors from different disciplinary fields (such as Economics, Political Sciences, Engineering, Law, Humanities and Philosophy, Medicine and Surgery, Mathematics, Physics and Natural Sciences). This qualified faculty adequately prepares students and generates professionals able to face the current global phenomena. Today’s leaders require legal and economic competences, a wide range of technical knowledge and historical sensibility as well as specific skills to manage cultural mediation.

The program is reserved to a limited number of students, both foreign and Italian, in possession of a valid high school diploma which is recognized by the University. Students are selected on the basis of an evaluation of their CV, an opinion paper and an oral interview assessing their personal motivation and their openness to international experiences. Classroom size ranges from 10 to 100 students depending on courses.

**ADMISSION TO THE PROGRAM**

The program is reserved to a limited number of students, both foreign and Italian, in possession of a valid high school diploma which is recognized by the University. Students are selected on the basis of an evaluation of their CV, an opinion paper and an oral interview assessing their personal motivation and their openness to international experiences. Classroom size ranges from 10 to 100 students depending on courses.

**DEADLINES**

**Foreign Students:**
- Applications can be submitted all year long.
- 50% foreign candidates will be selected per year.
- Students are advised to apply early in order to increase their chances of selection.

**Italian Students:**
Applications can be submitted during three rounds. The first in November, the second from December to February, the third from March to May.

**WANGARI, class of 2014, Kenya**

The program is reserved to a limited number of students, both foreign and Italian, in possession of a valid high school diploma which is recognized by the University. Students are selected on the basis of an evaluation of their CV, an opinion paper and an oral interview assessing their personal motivation and their openness to international experiences. Classroom size ranges from 10 to 100 students depending on courses.
THE PROGRAM

1ST YEAR

- first half
  - LEGAL TRADITIONS AND COMPARATIVE LAW
  - APPLIED ENGLISH: SPEECH AND PERFORMANCE
- second half
  - HISTORY AND CIVILIZATION
  - NATURAL DISASTERS PREVENTION AND REACTION
  - MICROECONOMICS
  - GROUP INTERACTION AND LEADERSHIP

2ND YEAR

- first half
  - STATISTICAL TOOLS FOR DECISION MAKING
  - ANTHROPOLOGY OF GLOBALIZATION
  - EFFECTIVE SKILLS AND BEHAVIORS AT WORK
  - GLOBAL LAW
  - ACCOUNTING
- second half
  - EUROPEAN THOUGHT AND GLOBAL JUSTICE
  - PUBLIC MANAGEMENT
  - INTERNATIONAL RELATIONS
  - MANAGEMENT OF INNOVATION
  - MACROECONOMICS
  - PLANTS AND ENVIRONMENT

3RD YEAR

- first half
  - COMPARATIVE BUSINESS HISTORY
  - GLOBAL ECONOMICS
  - SOCIAL INNOVATION
  - EUROPE IN THE GLOBAL WORLD
  - ENVIRONMENTAL QUALITY ENGINEERING
  - STATISTICAL LEARNING
  - One to be chosen among:
    - GLOBAL STRATEGIC THEORY
    - GLOBAL INTERNATIONAL ECONOMICS
  - PREVENTION AND PROMOTION IN GLOBAL HEALTH
- second half
  - FUNDAMENTAL RIGHTS
  - ALGORITHMS, DATA AND SECURITY
  - EXTRA ACTIVITIES AND OPTIONAL EXAMS
  - FINAL THESIS

OUR APPROACH

Visiting professors from all over the world enrich the cultural dimension of studying Global Governance. However the novelty of our approach lies not only in the material covered, but also in its organization and method. The language of instruction is English, which is used for both teaching and tutoring, as well as for formal and informal communication between the faculty and students.

Thanks to the limited number of students in class, each student will have meetings with a personal advisor, along with continuous opportunities to talk with teachers and well established professionals in the international arena who mentor students as they orient their studies and choices for the future.

GLOBAL GOVERNANCE BELONGS TO ECOLAS

The University of Rome Tor Vergata is partner of ECOLAS - the consortium of European Colleges of Liberal Arts and Sciences - a non-governmental educational consulting group that proposes to address the central issues surrounding the development of undergraduate (first-level degree) education for 21st century Europe within the context of the liberal arts and sciences tradition.

ECOLAS seeks to promote:
1. the capacity to understand the importance of multiple perspectives in examining and solving a problem;
2. the necessary cultural breadth of learning vital to trans-national relationships;
3. acute skills in critical analysis and synthesis;
4. the ability to articulate a position accurately and persuasively;
5. a passion for life-long learning.

OUR VALUES

We believe in the value of dialogue in overcoming cultural differences and dogmas of the traditional national borders, behind which very often insecurity and simplifications are hidden. Importance is also given to preserving cultural heritage, valuing local traditions and managing the threats and risks that globalization often creates. Please see on our website the Code of Conduct that every student has to sign before entering the program.

We strongly believe in the value of interdisciplinary teaching and of the dialogue between the various fields of study as a means of understanding the drivers of globalization and its optimal governance.

The University of Rome Tor Vergata is partner of ECOLAS - the consortium of European Colleges of Liberal Arts and Sciences - a non-governmental educational consulting group that proposes to address the central issues surrounding the development of undergraduate (first-level degree) education for 21st century Europe within the context of the liberal arts and sciences tradition.

One of the main goals of the B.A. in Global Governance is to provide the students with the professional training necessary to enhance their working skills after graduation. For this reason, we encourage training internships at institutions, firms and organizations in Italy and abroad. At the beginning of the first academic year we propose different internships which can be done during the summer break. More structured and organized internships can be considered for the second and third academic years and will be aimed at providing useful experience for the completion of the student’s final dissertation.

The University accompanies the students step by step as they make important decisions; in the second year of the program students are invited to participate in the Post Lauream Orientation meetings and workshops on educational and job counselling with Alumni, directors of other courses of study and managers. At the end of the three-year B.A. in Global Governance, students will be able to decide whether to continue their university studies or enter directly into the labor market.

During the academic year, Faculty members and students attend conferences, seminars and workshops where a wide range of topics relating to global governance are discussed.

This innovative session aims at supporting Global Governance students as they broaden their horizons and integrate their knowledge through meetings with professionals who have significant working experience to share. Frequent encounters provide special occasions for students to ask questions regarding career opportunities and to better understand how many fields of work are interrelated. Through speaking with qualified specialists, students will be more prepared to make appropriate choices and find the best way to build their future and professional career path.

The B.A. in Global Governance is not only geared toward training competent students, but it also aims to support young people as they improve their attitudes in social, professional and multicultural environments. For this reason, the program organizes an ample variety of “Off Campus” events with the goal of familiarizing students with the activities of the main institutions involved in global issues, while at the same time allowing students to adapt to different international contexts, environments and situations. Thanks to our network of global organizations located in Rome and Italy, many extra activities are made directly available to students within the program.

Students and professors frequently have stimulating debates with distinguished personalities who face global problems with innovative approaches. We invite them to join us on a regular basis.

Informal meetings and discussions occur with people who have had significant life experiences and innovative ideas to share in fields such as the arts, literature, music, sports, religion, science, society and politics.

One of the main goals of the B.A. in Global Governance is to provide the students with the professional training necessary to enhance their working skills after graduation. The B.A. in Global Governance is not only geared toward training competent students, but it also aims to support young people as they improve their attitudes in social, professional and multicultural environments. For this reason, the program organizes an ample variety of “Off Campus” events with the goal of familiarizing students with the activities of the main institutions involved in global issues, while at the same time allowing students to adapt to different international contexts, environments and situations. Thanks to our network of global organizations located in Rome and Italy, many extra activities are made directly available to students within the program.
The B.A. in Global Governance launched nine years ago allows students to have the opportunity to better develop awareness of their own talents and capabilities, thanks to constant feedback from professors, advisors and mentors and investment in soft-skills acquisition. Factors such as the selection of the major during the second year, the choice of the final dissertation topic and the opportunity to have an internship all assist students as they specialize their interests and make plans for the future.

All our students have so far graduated on time and found placement in excellent universities abroad or in Italy. They are now Ambassadors in the world of the values Global Governance stands for, increasing fast the reputation of our program. To see their placement check on our website.

Helping students make career choices

During the second year students will choose their field of specialization among 3 alternatives:

1. Economics and Philosophy
2. Political Science, Law and History
3. Science and Technology

Find your labor market opportunity

- Work in non-profit organizations
- Work in international companies
- Work in global organizations
- Become a competent journalist
- Work in international development agencies
- Start a new firm of your own
- Work in government agencies
- Work in a consulting company

Choose an academic career path

- International/Humanitarian Law
- Economics
- International Relations
- Media and Communication
- Political Sciences
- Philosophy and Economics
- Business
- Political Science
- Statistics and Big Data
- Social Health
- Cooperation and Development
- Natural Disaster Risk Management
- Environmental Studies
- Gender Studies
- Cybersecurity

3 Specializations

During the second year students will choose their field of specialization among 3 alternatives:

1. Economics and Philosophy
2. Political Science, Law and History
3. Science and Technology

Luca, Lorenzo, Alessandro, Patrick: our first Global Governance Graduates
Martina and Beatrice, class of 2014, internship in India
Clara, Mohammad, class of 2016; Alice class of 2017; Sara, Matteo class of 2015
Tuition fees will be based on the student’s family income from a minimum of full tuition exemption to a maximum of € 7,250 per year. All students are entitled to student assistance services, on the basis of financial means and/or merit.

The Chair established with the support of Intesa Sanpaolo aims at deepening the knowledge of the Global Governance field in order to stimulate vision and awareness, necessary qualities for experts in global processes. The Chair involves the appointment of Visiting Professors to teach a 42-hour course (6 credits), thus facilitating the exchange of ideas, experiences and points of view, as well as networking between different universities. The partnership testifies to the reciprocal desire to channel commitment into the common goal of charting paths of growth for young people and the community. Indeed, together, the Bank and the University believe that knowledge and academic research are the common good that reduces inequalities and provides social development, a good that must be opened up to all.

Global Governance students have the unique opportunity to take part to the Dual Degree Programmes with the Bachelor in Political Science and World Politics of the Higher School of Economics, National Research University of St.Petersburg and the Bachelor in Science Politique à l’International of the University of Paris Est Créteil (UPEC). The programmes are a very special chance for students interested in broadening their perspective of world politics, deepening their knowledge of Russian and French institutions and culture, and getting prepared for careers in government and policymaking, international business and non-governmental organizations. Upon graduation, they will receive diplomas from both institutions.

Many of our students choose to spend their third year abroad, using Erasmus or Overseas scholarships available on the basis of merit. This allows them to gain even more international exposure while focusing their studies on a more specialised path of their choice. Tor Vergata University is also part of the prestigious Venice International University [www.univiu.org] network of 16 world Universities involved, in the beautiful setting of the Island of San Servolo facing Venice, in the interdisciplinary Globalization Program, where our Global Governance students can spend one semester with their peers debating and learning how to face the challenges of tomorrow.

The main objectives of the Association are to provide an opportunity for GG Alumni to maintain their knowledge and skills in Global Governance (GG) issues, which will assist them in personal and professional development, and to foster networking among GG graduates worldwide. The Association carries out a broad set of activities both in Italy and internationally, including but not limited to:

- active support to GG B.A.;
- strengthening of GG network and mutual assistance among its Members;
- organization of periodic workshops on contemporary issues in GG;
- analysis on wide range of GG topics and issuing publications.

Global Observer link

Living in an increasingly globalized world, where one is constantly inter-connected and where the local clashes with the global often give rise to conflicts, made the GG students feel the need to give voice to their reflections, hoping to build an online community that believes in debating and exchanging opinions as ways of wearing down those conflicts, rather than enhancing them.

Alumni Association link

Founded in 1982, Tor Vergata is a public university which combines a liberal arts tradition with emphasis on career orientation in the field of arts and sciences.
Rome is the capital city of Italy in which many national institutions and international organizations are based (among others FAO, ESA, IDLO, IFAD and WFP).

With a population of almost 3 million people, Rome also welcomes millions of tourists each year; indeed it is considered one of the top European tourist destinations. Above all, Rome offers visitors the opportunity to get to know Italian life and culture, which subsequently provides a formative experience for students not only when attending university classes, but also in their free time.

Rome has managed to preserve some of the greatest works of art and architecture of all time. The adventure of living in Rome include having the opportunity to visit the ancient Roman ruins, monuments, churches and museums while at the same time being able to take part in the city’s many entertainments opportunities.

The city of Rome and the University of Tor Vergata are ideal environments for innovative interdisciplinary studies.
Global Governance Graduation Ceremony, July 2018

Global Governance monthly online open days which we strongly recommend to attend.
