1.	The Bachelor of Arts in Global Governance – as you can see from our Courses described in the booklet - offers interdisciplinary teaching, which aims to prepare professionals to face global challenges that require specific legal and socio-economic competencies, as well as a wide range of technical and scientific knowledge and soft skills to manage cultural integration, mediation and team dynamics. Do you have similar Bachelor programs at your University? What is your personal opinion about such type of (Liberal Arts and Sciences) programs?
	I do not think that we have similar BA programmes, but it is also true that the list of BA programmes is always expanding so it might be introduced in the future.

2. One of the main goals of the 3-year B.A. in Global Governance is to support the academic education of our students with a series of professional trainings so as to better identify their potential work opportunities after they graduate. For this reason, Global Governance

encourages training programs and internships within institutions, firms and organizations, both in Italy and abroad, selected on the basis of their prestige and quality of the experience. Do you think that these activities are important for the placement of our students in a University/Master program like yours or is it too early to do them during a Bachelor?

4. In order to help our students select an appropriate academic pathway to follow after they have completed the B.A. in Global Governance, the course offers three majors to choose from: Economics and Philosophy; Political Science, Law and History; Science and Technology. Do you think it is advisable to offer majors, or in other words, subject areas that students specialize in, in a Bachelor Degree? Would you give a greater attention to a candidate from one of those three paths or would you look only at other dimensions of their Bachelor studies? In case yes, which one of the 3 majors?

well as by the case, more t	neir employe han to the na	wer to your questions and future profeme of the majors, I plan. In my view,	ssors in grade would surely	uate or post-gradua analyse the full lis	ate programm st of exams, t	nes. In my he overall
